

Remarks

The restriction requirement mailed February 2, 2010 identified eleven distinct inventions and required an election among them. Applicants respond by cancelling all the pending claims and present new claims 82 to 96, in which only two independent claims, 82 and 90, are presented. Both of the independent claims are related and thus can be examined together. Applicants believe they have addressed the requirements of the restriction requirement.

It is believed that all the claims are in condition to be allowed. The Examiner is invited to contact the undersigned attorney for the Applicants via telephone at (312) 321-4276 if such communication would expedite allowance of this application.

Respectfully submitted,

/G. Peter Nichols/
